MSM TENNIS ACADEMY IN PRAGUE

No limits for education and sports!

Tennis develops thinking

As the phrase goes, "tennis is chess, played not on a chessboard, but on the court". When playing tennis, you should make decisions as quickly as possible, think a few steps in advance, be able to foresee the opponent's moves, and create tactics and a strategy for the game.

Our tennis camp in Prague operates in July and August and recruits teenagers from the age of 14. The camp consists of intensive tennis training sessions and English language classes.

Teams are formed by beginners and experienced players, and we select the exercises according to the individual skills of each player.

The Czech tennis school is considered to be one of the most professional and best in the world, which is repeatedly confirmed by the high achievements of and medals won by Czech tennis players. All our coaches are certified professionals. They will prepare a training program for each teenager, help to work out useful tricks, eliminate mistakes and significantly master the skills.

The summer camp will make your summer exciting and profitable!

Pleasant people and advantageous experience

Tennis has always been an elite sport. Politicians, actors, and business people have been playing tennis for a long time. Tennis is the only game where you will be so often apologized to. This is the game in which people obey the "fair play" principles.

Our training sessions consist of a highly intensive program, you will practice 2 hours a day 4-5 times a week. In sports, as in language learning, the regularity is crucial. Our coaches are professionals who will teach you how to play European tennis! We are also very proud of our professional sports center! RS Tennis Sports Center is a sports and recreational center that consists of 6 tennis courts, a gym, a wellness area, jacuzzi, sauna, a sports hall, a sports store and a cafe.

Sport is a great opportunity to meet new interesting people! Training sessions are conducted in small groups of several people, and include extra warm-ups and cardio.

English language class is conducted 4-5 times a week, a total of 50 hours with native speaking teachers. Our goal is to teach you how to overcome the language barrier! Groups are divided according to the language level. During the classes we discuss the latest sports news, technology, fashion etc.; we analyze English and American radio and completely immerse the student in the language environment.

Our classes help to bring people together and make friends in a pleasant atmosphere.

Work hard, play hard

Sports people need rest as well. Besides tennis training sessions and English language classes, the players explore the culture, sports, old and mystic Prague and other European cities, get to know the features of the Czech Republic and its beautiful places, visit the zoo, and enjoy the summer weather!

Within the month there will be trips to Dresden, Vienna, Karlovy Vary, Cesky Krumlov, Munich and Berlin.

Moreover, the students will be shown the best universities in Prague, where they will get acquainted with the higher education system. We know the value of time and that is why we combine sports, English language, and travel within 1 month!

At the end of the program, all students obtain certificates on the successful completion of the tennis and English language courses.

Welcome to Prague, welcome to our summer!
