

# / Hear from KE Students

We often get feedback from our students about the life-changing impact of KE's programmes. Students come back from their summer experience more culturally enriched, more confident about their interests, better equipped for university and the challenges of their future. Let these testimonials speak for themselves.

**Oscar**  
UK

KE provides a fantastic experience, which not only allows upcoming students to explore various education systems and cultures, but also provides an opportunity to make new friends from many different backgrounds. I'm still in contact with many friends from the programme.

**Emerine**  
Malaysia

The experience was thrilling! I was really reluctant to leave the UK and the friendly staff and students at KE. On the cultural trips, I was thankful for the opportunity to walk the beautiful streets and explore renowned museums and historical sites in the UK, while being able to interact first hand with guest speakers and lecturers was a golden opportunity to widen my intellectual and cultural horizons.

(Currently attending  
Cambridge University)

Apart from having great fun on trips and extracurricular activities, I gained some precious knowledge in the field of business and finance. I would honestly recommend KE to anyone wanting to get a taste of university life and broaden their horizons!

(Currently attending  
Harvard University)

KE was a great introduction to what it's like to live on campus at a US university!

**Chang Ru**  
Malaysia

During my two weeks in the USA, the program organized by the KE Foundation was really inspiring and motivating. It prepared us well and gave us early exposure to the world out there. We also made quite a lot of friends from various countries, and all of us still contact one another from time to time. KE definitely did a great job in bringing us together.

Cambridge University)

It was a delightful opportunity for me to experience a glimpse of student life in two of the best universities in the UK. And what made it even more meaningful for me was getting to build friendships with the organisers, student mentors and other participants.

**Sonja**  
Germany

I very much enjoyed the KE summer programme! Some of the people I met are still my friends, and one of them even attends the same university as me. Attending the KE programme definitely contributed to my decision to move to England for university. The workshops related to university applications were particularly helpful, because I already had a first draft of my personal statement when I started grade 12.

**Diana**  
USA

KE got me ready for the next few years of my college life, and for getting to meet new people from different backgrounds. It was also an eye-opener to see the different cultures that one university could have.
