

❧ WE ARE ALL ONE ❧

It is because we feel that we are separate from nature that we also feel it is okay to manipulate it, pollute it, and cause it harm.

We project our inner turmoil onto the planet, causing outer turmoil.

Nearly all of the disasters of our time—war, famine, oppression, social injustice, environmental pollution, extinction—arise from this delusional belief that we have an existence independent of the world we live in.

All of this misery, all of this destruction, all of this pain and suffering, is caused by our failure to realize that there is no separation and that really we are all one.
